

Products

Range

Avionics Communications
Telecommunications and RF
Power Electronics
Industrial & Consumer Electronics
Defence Communications

Industries Serviced Include

Aviation Communications
Power Generation
Security Radios
Motor Sports Industry
Gaming Industry
Agricultural Electronics
Meteorological Measurement
GPS Systems
Defence Industry

Exported to

Germany, Hong Kong, Indonesia, Ireland,
Malaysia, Philippines, Saudi Arabia, Spain,
New Zealand, USA, UK & Vietnam.

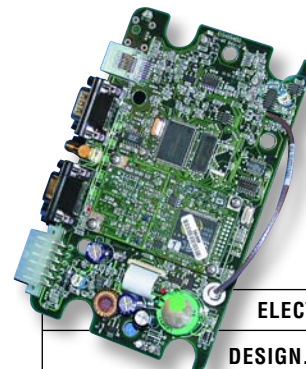

CASA (Civil Aviation Safety Authority) approval,
June 2000, to manufacture aviation communi-
cations equipment

SURTEK is supported at a local and national
level by a network of world-class Suppliers

ELECTRONICS MANUFACTURING

DESIGN. PROTOTYPE. BUILD. TEST.

TO YOUR SPECIFICATIONS AND REQUIREMENTS

WIRELESS & TELECOMMUNICATIONS

POWER ELECTRONICS: MICROPROCESSOR
CONTROL DEVICES & SYSTEMS

Manufacturing

WORLD CLASS BEST PRACTICES – OUR AIM

HIGHLY SKILLED WORKFORCE – OUR STRATEGIC PLAN

QUALITY PROCESSES – OUR DAILY PRACTICE

QUALITY PRODUCTS – OUR REPUTATION

Design

Hallmarks of our designs

- Innovative
- Hi-tech
- Energy Efficient
- Designed for Manufacture
- Robust

Market segments (customers) for SURTEK current designs include:

- Personal security systems
(Multinational Supplier)
- Telecommunication suppliers
(Major Australian Provider)
- Energy suppliers
(Major Energy companies Australia wide)
- Defence communications & power suppliers
(Major Australian Defence subcontractor)

Specific Capabilities

- Automated Surface Mount (incl. BGA)
- Circuit and Product Design
- Wave soldering
- Project management
- Prototype and hand soldering
- Function & Complete Product testing
- Soldering Standards: J Std 001B class 1–3
- Technical services
- IPC-A-610B & MIL-Std 2000
- Components purchasing
- Cable Harnesses making
- PCB's design and layout
- Metalwork: CAD design and drawing
- Documentation & Component traceability
